**Subject:** ESA Consultation CA Se Proposed Rule  
**Attachments:** Final.NMFS Initiation Ltr.CA Se.081219.pdf

Hi Joe,

Attached is a letter requesting verification of the NMFS species & habitat list for the ESA consultation on our California selenium water quality criterion proposal, to initiate informal consultation. We also request a list of essential fish habitat, as well as identification of any key information for our biological evaluation to help us find (up front) all the important documents for our review. We can discuss the letter's requests during our August 29<sup>th</sup> conference call.

The original is in the mail to you. Thanks, and talk to you soon.  
Diane
